

# TECHNIDATA IS RECRUITING AN ANALYST PROGRAMMER

Job Opportunity 

## COMPANY

TECHNIDATA is a leading software developer and supplier of software applications for the clinical laboratory. The TECHNIDATA group, which is certified to ISO 9001, employs over 160 people on 3 continents with six subsidiaries in Europe, the United States of America and Asia. To support our international expansion, we are recruiting an **ANALYST PROGRAMMER**.

## POSITION

- Reporting to a Project Leader and part of an international R&D team of 35 people spread over two sites, your role will be to develop and maintain Windows-based applications.
  - You will be involved at every stage of the software lifecycle: analysis, design, implementation, testing, and defect correction, working in full compliance with the Group's quality commitments.
  - You will define software solutions and determine the costs of the software development project, as described in the functional requirement.
- Attractive salary depending on experience and qualifications.
- M/F
- CDI (permanent contract).
- Location: Montbonnot (Isère, France).

## CANDIDATE

- With a High School diploma in Computer Science and at least 3 years' experience in a similar role, you have the necessary skills in C, Windows SDK, C++, MFC and relational databases (Access and SQL Server).
- You are proactive, rigorous and autonomous in your work. You like working in a team, and are motivated to satisfy the customer. Your strong writing and interpersonal skills will help you succeed in this role.
- You speak English, essential for regular contact with our subsidiaries.

Please send your application to:
